**Closes All Ports**  
Manila, Dec. 5.—General Chaffee has issued orders for the closing of all the ports in Laguna and Batangas provinces. The quartermasters there will cease paying rent to Filipinos for buildings used for military purposes. It is known that a large portion of the money finds its way to the insurgents. The reason for closing the ports is that many supplies are found to be getting into the possession of the rebels. Governor Taft is improving rapidly. He expects to start for the United States before Christmas on the transport Grant.

**Jubilee in Manila**  
Manila, Dec. 5.—The local newspapers published extras on the news of the United States Supreme Court's decision that the Philippines were American territory and that the imposition of duty on articles imported into the United States from the Philippines is improper.

## ALL ARE UNITED ON MAIN ISSUES; CANNOT AGREE ON LA FOLLETTEISM

Former Republican State Chairman Coe Believes the Next Legislature Will Be Solid for Spooner.

Milwaukee, Wis., December 5.—E. D. Coe, former chairman of the republican state committee, of Whitewater, in speaking of the lamentations of certain politicians on account of the "division in the party" in this state, said today that he could not recall a time when there was not some sort of a division, saying:

"At one time it would be over a question of candidates, and at another over party doctrine or policy. But who can remember when these differences did not become allayed before voting day arrived, except in the fateful years of 1890 and 1892? There have been hot times over candidates and official successions, but they usually cooled off before election day.

In 1898 there was a formidable revolt led by our present governor against Governor Scofield's candidacy for a second term, but it failed of accomplishing its purpose; though the unusual result of a defection of several thousand votes from the head of the ticket was realized at the polls.

Grand Rapids Attorney Convicted on the Charge of Bribery.

Grand Rapids, Mich., Dec. 5.—Lant K. Salsbury, city attorney of this city for the last three years, was convicted this morning of accepting a \$75,000 bribe for the delivery of a \$4,000,000 water contract to New York capitalists during August, 1900. The jury was out fifteen hours.

## ADVISED TO "STICK TO THE FARM"; GOVERNORS AT LIVE STOCK SHOW

Heads of Four States Pay Tribute to Life on the Farm—Warm Greeting to President Roosevelt—Cheers for Foe of Combines.

Chicago, December 5.—Last night closed "Governor's day" at the live stock show. Facing a throng that packed the big pavilion, the heads of four of the leading live stock and farming states of the Middle West told how the farmer is the "backbone" of the nation.

"Stick to the farm," was the advice each gave, and these words were applauded again and again by the thousands of Chicago citizens in the crowd, who don't know a farm from a biscuit, in so far as their business lives are concerned. Each speaker sounded especially the glories and resources of the state which claims him as its chief executive.

The four governors whose addresses brought the fifth day of the show to a close were Shaw of Iowa, Van Sant of Minnesota, Bliss of Michigan and Savage of Nebraska. They sounded the end of a day of activity among the thousands of stockmen who are in the city—a day which was begun with the passing of formal resolutions by the members of the National Live Stock association, in session at the Studebaker theater, attesting their faith in and loyalty to President Roosevelt.

Greeting to the President  
"Representing the largest industry in the nation we send greetings to President Roosevelt," ran the resolutions, "assuring him of the loyalty and support of the stockmen of the country in all his undertakings for the good of the people. We recognize in our new chief executive one

## TWENTY-EIGHT SAILORS DEAD

Report of a Disaster to British Ship Nelson on Pacific Coast.

## IT TURNS TURTLE

All on Board Are Dragged to Their Doom Without a Moment's Warning.

## CAUSED BY BIG STORM

Astoria, Ore., Dec. 5.—The lives of the twenty-eight members of the crew of the British ship Nelson, Captain Periam, were snuffed out last night when that vessel, according to a report which reached here today, turned turtle off the mouth of the Columbia river in a gale and almost immediately sank. Caught under the heavily laden ship, the helpless sailors are said to have been carried drowning to the bottom while men on a companion vessel, willing but unable to aid, looked on in consternation. The rumor of the disaster was brought to this port by the tug Tatoosh, which was towing the Nelson at the time the latter disappeared. Captain George W. Woods, the bar pilot, who was on the tug, thinks he owes his escape from death to the fact that the weather was too rough last night for him to be aboard the Nelson as had been planned. It was the intention of Captain Bailey of the Tatoosh to remain with the ship during the night. The gale was too severe for the vessel to withstand, and she broke from the tug shortly before midnight and disappeared. The tug searched for a trace of the ship for several hours, and then her captain, convinced that all on board the Nelson had perished, started for port. The crew of the tug disagree as to the probable fate of the vessel, some believing that she may yet be safe. The Nelson was an old wooden vessel. She carried a cargo of lumber and was consigned to Cape Town, South Africa, by Taylor, Young & Co. of this city.

**Side Lights on Congress**  
Anarchy, Polygamy and Labor Matters Three Current Topics.  
Washington, Dec. 4.—Anarchy, polygamy and labor matters are the three topics on which most of the petitions which have been addressed to the Fifty-seventh congress are written. Petitions on these subjects are being filed from all parts of the country. They will be referred to the various committees having jurisdiction of their subject matter.

Speaker Henderson is making up the committees of the new congress as rapidly as possible. He can predict no time, however, when his work will be completed. It is the general impression that the committee assignments this year will be announced somewhat earlier than usual. The action of the house in adjourning over until Friday will give the speaker more time to devote to this task.

## NOTE FROM TURKEY ON THE STONE CASE

## INSULT TO A GIRL ENDS IN TRAGEDY; ONE MAN KILLED AND TWO WOUNDED

Herbert Marks, a New York Man, Attacked by Virginia Bloods—He Shoots in Self Defense.

Richmond, Va., December 5.—An alleged insult to a woman and the resort to the ancient Virginia code of honor last night led to a tragedy in which Herbert Marks of New York and son of Marthus Marks, President of the American Telephone company, killed William P. Taylor and badly wounded J. Q. Stiff and William Hefflin.

Marks surrendered to the sheriff and is now in jail, although the corner's jury has acquitted him of criminal responsibility. There are many threats of violence, and Marks will leave at once for his home in New York.

**Accused of an Insult**  
Marks was reported to have made an insulting remark Thanksgiving night to Miss Rose Taylor, the 17-year-old daughter of the late Dr. T. L. Taylor. She is an acknowledged belle and beauty. Her cousin, William P. Taylor, who was also highly connected, is said to have

been deeply in love with her. Information of the alleged insult reached Young Taylor, who with personal friends, J. Q. Stiff and Willie Hefflin and other leading young men in the county, went to Marks home that same night with the avowed purpose of giving him a dressing of tar and feathers. They did not find Marks. They went to his house again last night, fully armed.

Marks was prepared and in the shooting melee which followed Taylor was killed and his two companions seriously wounded.

**Coroner's Jury Accus**  
A coroner's jury which considered the case brought in a verdict of not guilty. Marks denies of having made towards Miss Taylor the advancement of which he was accused. Her family knew nothing of the affair, and are prostrated over the tragedy.

The dead man belonged to one of the wealthiest and most influential families of Westmoreland county.

## The Tobacco Market

The 1901 tobacco crop has been getting considerable attention during the last week from the local dealers. Quit a number of them have been riding through the country and have purchased a number of crops. Most of the crops have been purchased in the vicinity of Evansville, in the towns of Union, Magnolia and Center. On dealer has purchased about seventy-five acres, another sixty and others from twenty to forty. Most of them claim they have only purchased enough to start the warehouses on, as they are anxious to get the tobacco on the market and see what it is like.

Dealers are very reticent about the prices paid for the crops, but say the prices run from seven and a half to ten cents. At this rate the farmer will get a pretty good thing out of his crop.

The hunt for 1900 tobacco still keeps up and anyone that has any to sell has no trouble disposing of it at a good round price.

It is reported that the balance of the L. Bamberger & Co.'s 1900 packing in this state amounting to about ten thousand cases has been sold to the American tobacco company. T. B. Earl of Edgerton is the western agent for this firm and personally superintends the buying and packing of their goods. This is one of the largest sales ever made in the state and means that between two hundred seventy-five and three hundred thousand dollars changed hands on the deal.

Most of the warehousemen of the city are getting their buildings in shape for the fall business and all will probably have some 1901 to dispose of next season.

The New York market this week was quite active. All New York types were in demand and many sales were made, but the chief transactions were in Connecticut and Wisconsin leaf. Of the former about eight hundred boxes, both of broad leaf and Havana seed, were sold in bulk at prices in advance of the Fall figures, and of the latter the transactions ran into the thousands. It is reported that a certain corporation is trying to gobble up every box of 1900 Wisconsin in sight. New York packers who still hold large quantities were approached to make the deal, but it was not closed on account of the high prices demanded by the New Yorkers. But the deal was successful in Philadelphia, several firms there selling out their entire holdings. The money value involved in this Philadelphia deal in Wisconsin is reported to have been \$275,000. But this amount is evidently exaggerated. The fact, however, that one manufacturing concern is attempting to buy up all the 1900 Wisconsin it can lay its hands on ought to be a warning to other manufacturers who have held back from supplying themselves with the most available binder leaf in the expectation of squeezing the holder down a half cent, that they will be sorely left. And it is not only a question of next year's supply of Wisconsin, but also for the year 1903, as this year's crop was nearly ruined by the drought. There is nothing in view to take the place of the Wisconsin binder. The few thousand cases of Onondaga are being jobbed out rapidly, and before the new year will have advanced a few weeks the Onondaga will be out of the market too.—U. S. Tobacco Journal.

What market there is for tobacco in Ohio is confined to 1900 packings, and these are not very plenty. Scatterings of Zimmer Spanish at from 7 to 8 cents and a few of seed leaf at 6 and 7 cents are reported. As there is but little left of last year's crop, it is expected that it will soon be exhausted. The continued dry weather has prevented any handling of the new crop and growers are becoming anxious. So long has been the dry spell that many are now compelled to drive their live stock many miles for water, and the condition of the hanging tobacco can well be imagined. If a general freeze up should occur before rain falls they will be compelled to resort to some method of dampening the tobacco so that it may be handled. Under the circumstances the report that no business is doing is not surprising.

The damp weather during the last week in New York was just what was needed, and all farmers are busy taking down their tobacco or stripping. On account of the continued dry weather the tobacco has been left hanging at least two weeks longer than last year; but now, that reasonable weather has arrived, extra efforts will be made to hurry the stripping so that buyers will not become impatient. As usual, there are glowing reports of the condition of the crop and in many instances, these reports are warranted. In some sections, however, it is admitted that the leaf is rather dark, while in other districts, especially the big flats, it is acknowledged that the crop suffered somewhat from worms and grasshoppers. If the crop is properly assorted, however, these defects will not affect the value of good leaf, and the more progressive farmers are looking after this part of the work very carefully. Buyers are plenty and there is no lack of demand for good tobacco, either old or new.

There is still no change in the tobacco situation in Connecticut. Both farmers and buyers hoped that last week's damp weather would have warranted the taking of tobacco from the poles, but the dampness lasted only a short time, and prevailed mostly at night when the barns were not opened to receive the benefit. Packers are becoming impatient, and of course, the farmers are not jubilant, and anything that promises to expedite matters will be eagerly welcomed.

Continued quiet prevails in the Lancaster, Pa., market for cured tobacco. The demand is very light, although buyers have been here from various outside localities. The consideration of price seems to sway them more than anything else. If the latter meets their idea, other things are subordinated. But the fact is prices are today on a basis that will not allow of any further scaling, so the general volume of trade has been moderate, about 500 cases.

We had several days and nights of steady rain during the last week, two inches having fallen. Seldom was rain more needed for all purposes. The tobacco farmers have been unable to do any work on their crops for five or six weeks, much to their regret. They have been making up for lost time since last Monday, and the work of preparing their crops for market will now go ahead steadily. This may stimulate our market for new leaf out of its long lethargy, which has proved so disappointing to everybody.

Although the fact may so far escaped the attention of the trade, the information comes to us upon the best authority that the Chicago firm of J. Friedman & Co. are the largest holders of 1900 Wisconsin leaf of any jobbers in the west. This enterprising firm has been quietly adding to their holdings ever since it purchased the Soverhill & Porter packing early in the spring. Later, they took a big block of Vernon county leaf from the Bamberger firm, until the Chicago house can count about 7,000 cases of 1900 Wisconsin and makes them clearly the largest holders of the crop of any jobbers in the west. Friedman & Co. are one of the oldest houses in Chicago and have each year been extending their trade throughout the country. Their business foresight in securing such a large block of Wisconsin puts them in position to serve their customers with the best binder stock the trade has seen in some years.—Wisconsin Tobacco Reporter.

Messrs. Sutter Bros. have bought a farm of about 50 acres near Piquonock, Conn., at a price stated to be a little less than \$8,000. The firm will use their new farm as an experimental one, upon which all kinds of tobacco will be grown, from Havana and domestic filler to shade grown wrapper, for their purpose of encouraging farmers in the raising of tobacco producing the best results.

### EASTERN STAR BANQUET

A pleasant evening is in store for the members of Janesville Chapter, No. 69, Order of Eastern Star, tomorrow evening, at which time a special meeting will be held. The meeting will be preceded at 6:30 o'clock by a banquet one of those delightful happenings which occur in Eastern Star circles at regular intervals during the year.

Following the banquet the regular meeting will be held and it will be of special interest as work is to be exemplified by the first staff of officers who ever served the local chapter. After the meeting the present officers will entertain the chapter at a social dancing party.

### EAST CENTER.

East Center, Dec. 4.—Owing to the beautiful fall weather we have had, the farmers are all through shredding and are now waiting for tobacco weather.

Willie Popploh has been helping Ed Brown with his fall work. Mr. and Mrs. Frank Lowry welcomed an eight pound baby boy to their home Thursday, Nov. 21. The mother and child are both doing well.

Mrs. E. H. Brown, who has been quite sick, is now convalescent. Dame Rumor says that wedding bells are soon to ring in our adjoining town.

Joseph Spence is visiting his sister, Mrs. Walter Little. Mrs. Ralph Bleasdale entertained friends Thanksgiving day. All report a lovely dinner and a good time.

Read Commissioner George Brown hailed a load of lumber, and unloaded it beside a bridge which needed a railing. One day this week he went to see if the lumber was all right, and found that it had all mysteriously disappeared.

Joe Little made a business trip to Janesville last Saturday.

Quite a number from this vicinity are going to attend the fat stock show this week.

The Philomathean club held its last regular meeting at the home of Mrs. George Brown. It was voted to hold the meetings in the forenoon instead of in the afternoon, as before. The next meeting is to be held at Mrs. Charley Crall's. All members are requested to be present.

### Small Boy Is a Murderer.

Newport, Ky., Dec. 5.—Joseph Creelman, 8 years old, had a quarrel in the schoolroom with Eddie Armines, aged 11. While the boys were on their way home at noon the quarrel was renewed. A third boy took the part of Creelman and threw a piece of brick, which struck Armines on the head. At that moment Creelman ran up and the Armines boy stabbed him. Creelman fell and in fifteen minutes was dead.

### Schwimmer Makes Another Record.

Philadelphia, Pa., Dec. 5.—In the Amateur Athletic union track and field championship games given at Sportsman's show E. Carroll Schaeffer of the National Swimming association broke a record in the 500-yard event. He covered the distance in 7:42.45, thus breaking the American amateur record of 7:42 made by Stanley B. French at New York on November 19, 1896.

### Difficult

### Digestion

That is dyspepsia.

It makes life miserable.

Its sufferers eat not because they want to—but simply because they must.

They complain of a bad taste in the mouth, a tenderness at the pit of the stomach, a feeling of puffy fullness, headache, heartburn and what not.

Hood's Sarsaparilla cured Joseph F. Laine, Flanagan, Ky., who writes: "I was troubled with dyspepsia for a number of years and took medicine that did me no good. I was advised by friends to try Hood's Sarsaparilla which I did and it put my bowels in perfect condition, gave me strength and energy and made me feel like a new person."

Promises to cure and keeps the promise. Beware of substitutes. Buy Hood's and only Hood's.

### HISTORICAL TALK TO HIGH SCHOOL.

Prof. Charles W. Seymour of New York, Lectured to Teachers and Pupils Yesterday Afternoon.

Another lecture in the Historical course, which is being given by Chas. W. Seymour, of New York, before the students and teachers of the High school, was listened to with intense interest yesterday afternoon at the close of school. Mr. Seymour spoke on Charlemagne and the lecture was fully up to the standard of those which he had already given. His interesting manner of compiling historical facts and his vivid style of delivery make his lectures uniquely fascinating.

Mr. Seymour traced the brilliant history of Charlemagne, or Charles the great, from the time when he ascended the throne of France at the death of his father, King Pepin, until his death and his being subsequently canonized as a saint. His history is curiously interwoven with the growth of the pope of Rome's influence. Before Pepin's death, the pope had appealed to him for aid against the Lombards who had seized vast territory belonging to the Roman empire. Pepin had crossed the Alps, conquered the Lombards, and recovered the territory but instead of returning it to the emperor, he gave it to the pope. This is an important fact in history for from this time dates the pope's claim to temporal power and to his right to be considered one of the sovereigns of Europe.

There were two Charlemagnes in one person; the soldier and the king. Charlemagne, the soldier, was clad in iron armor, carried an iron sword and shield and had an iron will and an iron heart. If he had done nothing but carry on the wars of his life time he would have been a busy man. Almost every year he carried on a war against the Saxons and every year but one he had beaten them.

Every fall they gave hostages and signed treaties and every spring they broke the treaties and left the hostages to their fate. Charlemagne was determined that they must become Christians or be wiped off the earth and his battle cry was baptism or death. One day he had the heads of 4,500 prominent Saxons cut off and then he went to his palace and kept Christmas. It was said that the better he celebrated Christmas, the more severely he carried on his campaign against the Saxons the next year and if he celebrated both Christmas and Easter, war to his enemies. After thirty-three campaigns what Saxons there were left kept Christmas too. In addition to these campaigns he carried on other wars against the Lombards, the Moors, the Hungarians and many other people. He carried on fifty-three wars during his life and at his death he ruled over an immense dominion, including the territory now included in France, Germany, Holland, half of Spain Austria, Hungary, Bohemia, Poland and other small provinces.

Charlemagne, the king, is a much more interesting character than Charlemagne, the soldier. It is impossible now to conceive of the ignorance of the dark ages when crime was rampant, the only law known was the law of the strong and the cheapest thing in France was the life of a man or the honor of a woman. Charlemagne learned to read after he became king but he could never write. He understood the importance of education to the people and established many schools. One of the most interesting was the palace school in which the king and his family studied under an Englishman. Charlemagne inherited an ecclesiastical policy from his father and did all he could to raise the standard of the church. He established a standard money, built a bridge over the Rhine and Danube rivers, employed the best men he could secure to represent him in the different parts of his dominion and did much for the progress of the people.

In 800 he went to Rome to celebrate Christmas and during the mass the pope took advantage of the fact that there was then no Roman emperor and crowned Charlemagne emperor. It seemed then that Charlemagne had attained the height of earthly glory but after his death he was made a saint and the 29th day of January dedicated to him. But he attained even greater glory than this, the glory of inspiring a great love in the hearts of all who knew him.

The final lecture on the course will be given on next Monday afternoon and will probably be on Cleopatra.

J. L. Bear and Bert Gage have leased the old jail property and will conduct a feed store.

## THE PRESIDENT'S APPOINTMENTS.

Every day or so we can hear the rattle of dry bones as the president topples over some precedent, and causes the staid old senators to look over their glasses in consternation, as he makes a new appointment.

President Roosevelt certainly has at his back the thinking people when he declares he will appoint only fit men to fill vacancies. He made a decided sensation when he appointed democrats in the south where no suitable republican was found: when he restored 1,500 places in the war department to the civil service list, which had been taken out because of General Alger's recommendation; and when he decided that his army and navy appointments in the colonies would not be influenced by politics.

It is very evident that the president is not afraid of the party lash, principally because he holds the whip hand.

The president has consulted with all he has heard all claims politely; but he recognizes that party claims and privileges cannot be narrowed to a single man or group of men in a small state like Delaware or in the great state of New York. His ability to make these appointments without offending party leaders, proves the justice of his position.

Social and political influences count neither for nor against an aspirant for his favor; the good of the service has been the watchword from the beginning to the end, and such a motto has raised these selections to a matter of sworn duty, which the American people recognize and applaud.

## A HERCULEAN TASK.

Governor Van Sant has undertaken a task which will demand all of his ingenuity and ability to carry out, and the results will probably determine which is the stronger, a great railroad system or state governments. Minnesota has been joined by many northwestern states which have laws prohibiting railroad consolidation, in a battle which promises to be full of spectacular plays and far reaching results. The railroads have pooled their stock in the "Northern Security Company," in order to circumvent the law and it remains to be seen if the state courts will consider this movement simply an evasion of the laws.

If the governor fails to dissolve the combination under the present laws, there is a probability that the coming legislature will enact more stringent measures which will be intended not only to control railway managers of the Hill type, but will do positive harm to their interests.

Mr. Hill has been defeated once in this field and has probably chosen well his ground before inviting a second attack which he knows must certainly come sooner or later.

The people may not have anything to fear from the combine, and the railroads may make them feel they are to be well treated in the advantages that will accrue in the form of cheap transportation; if they succeed in this, the pool will stand regardless of state laws.

In any event there will be an attempt at an appeal for federal legislation to protect and regulate contracts and rates, which may or may not lead to government ownership or operation.

## THE OLD STORY.

Yes, "people allow themselves to be gulled into pleasant imaginings while listening." Those "pleasant imaginings" just now have left the vale of imagination and have become realities. Prosperity was promised good and hard; then it was called imagination, but today prosperity is here, in bodily form, and stalks about among our manufactories, our wholesale houses, our offices and homes in flesh and blood. This is the "old, old story" of many promises made by the republican party and will be repeated as the fables of our childhood; but the American citizen has found that these promises are no fables, they are backed by years of fulfillment and a record of unbroken realization.

We are not slow to see that it is better to tie to a principle that has worked well whenever put to the test than to go kicking about after something we are liable to never get, and find that when we do get it nothing but evanescent ghost substance is the reward for our folly. The republicans of today are simply fulfilling their promises as fast as time will allow; tariff and then reciprocity will make our present prosperity a permanent condition.

## GOOD ADVICE.

Secretary Root has made a suggestion in regard to the friars in the Philippines which will be a long step toward pacification if adopted.

The friars own many hundred thousands of acres of valuable farming land which is rented to the natives; the rebellions that have been most serious of late have had their beginnings in trouble between these renters and their tenants. Let the government buy these lands and sell them to the natives at a nominal price, thereby doing away with the irritation which festers periodically into open rebellion. The friars have ceased to enjoy the full benefits of their possessions, and might better sell them at a fair valuation than to continue to hold them. Then too, the tenants would have an opportunity of possessing a home and land enough for a living which would be assured them from year to year.

The transfer would be beneficial to both parties concerned, and at the same time would cost the government much less to effect than constant arbitration by force of arms. The secretary has good ideas on this subject and the courage to express them boldly.

Mr. Astor went to England to escape the American press, and finds that the English press is quiet as caustic. Why should any courageous, high minded gentleman fear the press of any country?

The American naval officer has learned that it is better to be ten miles away during a naval battle, and are planning accordingly to let their lieutenants do the fighting.

La Follette has left a name and fame to posterity. "Plenty of it such as it is, and good enough what there is of it."

## PRESS COMMENT.

The fear of the Lord is the beginning of wisdom, and the fear of La Follette is the end of it.—Milwaukee Sentinel.

Will the Wisconsin football team fall under the cognizance of the game warden? But perhaps no license is required when Wisconsin men go after a Chicago Stagg.—Milwaukee Wisconsin.

The warring factions of the republican party in this state have accomplished one thing at least. Caused the democrats feel pleasant over the prospects of a victory for themselves next year.—Clintonville Tribune.

The stalwarts must be getting ready to promote the national interests of the republican party, as would appear from the cold water their press is throwing upon reciprocity as advocated by both McKinley and Roosevelt.—Marquette Star.

Some of the Stalwart organs in referring to Governor La Follette ask, "whose governor is he?" They should know by this time that he is not owned by the league that has headquarters in the eleventh floor at Milwaukee.—Chilton Times.

La Folletteism demands absolute subjection of its adherents to the will of the supreme boss. No one must hold any other opinions than those emanating from the infallible leader and no one must do anything which is not directly for the political interests of the chief dictator. A favor of any nature, no matter how small, bestowed on any one outside the fold, is construed as an act of enmity which must be punished.—Marquette Eagle.

He is "outside the pale of every healthy political organization," and is engaged in a work commenced eight or ten years ago of building a political organization of which he would constitute himself head, front and center. He is essentially federalistic in all his ideas, and would if he had the power consign to battles all who dared to differ with him. His advocacy of a primary election system is to place his Madison regency in control of wires to reach and direct every neighborhood in the state.—Appleton Evening Crescent.

The effect of American influence in the Philippines is readily apparent from a perusal of the daily papers which came from Manila. In one of them published about two months ago, and just received, a glaring advertisement is noticed announcing that "The Columbian roller skating rink will soon open at Calle Follz Huertas and Calle Lopez de Vega, San Lazaro, behind Bilibid prison." And probably by this time the pretty Philippine maidens have mastered the intricacies of the alluring pastime and are nightly gliding around the polished floor with the Yankee soldier boys, to the tune of "A Hot Time in the Old Town Tonight."—Oshkosh Northwestern.

It is with regret that we notice a growing disposition on the part of some elements of the republican party to find fault with President Roosevelt, the only visible reason for which is his manifest disposition to be president himself.

There is no chance for doubt that the majority of the republican party admire him and repose the utmost confidence in his purposes and capability. His whole history since he came before the public is such as to justify faith in him. He has shown that he is a reasonable, but strong willed man of the "be sure you are right and then go ahead," type, and there has never been even the faintest shadow cast upon his integrity or patriotism.—Marquette Star.

## SMILES.

"What is a promoter, Jim?"  
"Well, a promoter is one of those

fellows that can sell you a colander for a wash basin."—Boston Bulletin.

Johnny—Say, pa, why are poets born, and not made?  
Father—Because its cheaper, my son.

"You've lynched the wrong man," cried the sheriff.  
"Well," replied Alkali Ike thoughtfully, "it's a great piece of luck that we didn't find it out in time to spoil the fun."—Chicago Post.

"Did you notice how she jabbered away when she sat between those two men?"  
"Goodness, yes. It made me think of a tongue sandwich."—Philadelphia Bulletin.

"Been hunting today?"  
"Yes," said the amateur, with the wild apprehensive look in his eye.  
"Have you shot anything?"  
"I don't know yet. I'm waiting for the rest of the party to get into camp so that we can call the roll."—Washington Star.

A man in a neighboring town who took a city paper in preference to a county paper because he got more paper for his money, was attracted by the advertisement of a patent fire escape, which would be forwarded for \$1. He sent the cash and in a few days received a copy of the New Testament.—Washburn News.

## AUTUMN IN MARYLAND.

Writer Tells of Late Autumn Scenes in that State.

There is an incomparable beauty in these autumn days, a mellowness and ripeness like a reflection from the heavily laden orchards, which can be seen at no other time of the year. The air and eagerness in the morning air sends the blood coursing through the veins as though under the stimulus of old wine. There is life and buoyancy in every breath. The sun shines warmly through an atmosphere of tinted crystal, and with deft touches brings into life the slumbering beauties of the autumn woods. Banners of gold and crimson and maroon hang gracefully on the swaying branches bright and splendid against the green background. Slowly, as if to mark the passing of the enchanting moments, nuts drop one by one from the trees and the echo of their striking resounds through the quiet woodlands. The stream is just a little clearer and its music on its pebbly bed a little sweeter in these autumn days. The ripening season comes slowly on. Jack Frost is just severe enough to help old Sol in spreading his incomparable decorations, and not keen enough to wither the foliage and leave the trees bare and dreary—the melancholy autumn scene of the more northern poet. The days of this splendid period in Baltimore and the surrounding country run into weeks and the weeks into months. It begins while September tarries still, and the magic of the season has not been dispelled until late November days. There are no clearer skies than those of Maryland, no brighter sun, no foliage which responds more generously to nature's autumn brush.—Baltimore News.

## American Printing Cheaper.

According to a correspondent, a representative of a provincial printing firm called on a London firm which distributed circulars from which the printer's name had been removed. An estimate was prepared on the basis of a small turn over profit which, considering that the works were situated in a rural district forty miles from London, on a rental which in the city would not pay the ground rent, was much below what would be possible for a London house. Indeed, the representative was confident of obtaining an order, but was thoroughly nonplussed when told the price quoted was considerably above that now paid. The firm's printing was done in the United States, the orders being given in such quantities as to insure the lowest freight charges, and after adding the latter, including delivery to the door, the cost turned out to be considerably below that of the lowest estimate yet received from any British firm.

## Roosevelt Bars Camera Fiends.

President Roosevelt has had the big gates of the White House closed, depriving some thousand or more federal clerks of the privilege of taking a short-cut home from work. The President's children romp in the grounds and several times recently they have been annoyed by camera fiends. To protect them, he says, he was compelled to order that the gates be kept always closed.

## Waterworks of Two Cities.

New Orleans, a city of nearly 300,000 population, consumes less than 15,000,000 gallons of water daily. The total cost of the New Orleans water works was \$4,000,000. St. Louis has spent \$20,000,000 for the same purpose and has a daily consumption of 60,000,000 gallons.

## DEALINGS IN REAL ESTATE.

From October 21 to November 19, one hundred and thirty-nine parcels of real estate to the value of \$200,000 changed hands in Rock county. This would indicate that people who have money to invest are satisfied that they can find no better place to put their savings than into first-class Rock county real estate.

Good building lots and farm property are always in demand, and when thought right can always be disposed of to a fair advantage. The low rate of interest on money of late has caused many to put their money into farm lands and buildings that give good returns to the investor. Many people prefer real estate to the best securities for the reason that it is a sure thing, no matter how stocks fluctuate. The past season has been a busy one in real estate circles, and the force at the Register of Deeds' office has been kept busy most of the time trying to catch up with their work. The list is as follows:

## AMUSEMENT NOTES.

The production of Quo Vadis, which is to be seen at the Myers Grand tomorrow evening, is the only authorized version of the play and is the Whitney & Knowles production with which the local dramatic season was opened two years ago, and not the cheap and worthless one which was presented later at popular prices. It will be remembered

Quo Vadis

that the original production was magnificently staged and given by an excellent company, being an inspiring performance. This year Messrs. Whitney & Knowles have re-staged the production, making it even more gorgeous than before, and assurance is also given that the company is much stronger. The production of Quo Vadis is strictly high grade and is worthy the most liberal patronage.

Not for a long time has such a unique and novel program been presented by the Pittsburgh orchestra as that recently at the concert in Carnegie Music hall, Schenley park. Most noteworthy was the second movement of the Tschalkowsky suite de ballet "La Belle au Bois Dormant." The music was written about a "Puss in Boots" legend and the second movement represents a concert of cats who strike their claws across the chorused instruments and mew in chorus. It is seldom that comedy is attempted in music of this class and it is less frequent that it proved comic to the average listener. The first note had hardly been heard than there was a smile and as the movement progressed there was a burst of laughter.

Because it was comic and laughable, however, does not signify that it should be commonplace, for on the contrary the work is undoubtedly a masterpiece. It was one of the most lifelike descriptions yet heard at the concert. The other movements of the suite are pleasing and demonstrate the wonderful possibilities of the Russian composer.

"The Man From Mexico," which Walter E. Perkins' comedians will present at the Myers Grand Dec. 9, promises to furnish one of the most enjoyable evenings of fun and laughter ever provoked by a stage performer.

The Man From Mexico

mance. In fact, this comedy enjoys the reputation of having made more laugh within the past two seasons than any half dozen other comedies combined. The previous tours have been limited to the larger cities, but it will be presented here in the same thorough and artistic manner that characterized its performances in New York, Boston and elsewhere. It has become unfortunately common for managers to cheapen and cut down expenses when productions transferred to the general tour, but Mr. Perkins claims the distinction of keeping "The Man From Mexico," right up to the high standard of excellence fixed in its original production in New York City. It will be presented here by a high class company of comedians and will have the aid of special scenery and appointments.

## Life's a Sack Race

To a sick man. He's hobbled, hampered, handicapped by his sickness. Every little while he has to lay off for a day.

He can't get ahead. Everybody passes him in the struggle for success. If sickness originates in a diseased condition of the stomach (and most sickness does) it is a cure for it. Dr. Pierce's Golden Medical Discovery is not a cure-all, but a medicine specially designed to cure diseases of the stomach and organs of digestion and nutrition. It cures many forms of disease, because many forms of disease originate in a diseased condition of the stomach and digestive and nutritive system.

"I write to tell you of the great benefit I have received from the use of Dr. Pierce's Golden Medical Discovery," writes Mr. G. B. Bird, of Lynside, Putnam County, West Va. "It cured me of a very bad case of indigestion associated with torpid liver. Before I began the use of 'Golden Medical Discovery' I had no appetite; could not sleep or work, and used little. The little that I ate did not agree with me; bowels constipated, and life was a misery to me. I wrote to Dr. Pierce, giving the symptoms, and asked for advice. You advised me to try the 'Golden Medical Discovery,' so I began the use of it, and after taking four bottles I felt so well that I went to work, but soon got worse, so I again began the use of it, and used it about eight weeks longer, when I was permanently cured. I took in all about twelve bottles of the 'Discovery,' and some of Dr. Pierce's Pleasant Pellets in connection with the 'Discovery.'"

Dr. Pierce's Pleasant Pellets keep the bowels in healthy action.

## Dyspepsia Cure

In speaking of indigestion, Dr. Lewis says: "It is deplorable that so many hundreds of thousands of Americans suffer from indigestion. It means that the blood of the nation is becoming impure; for undigested food poisons the blood. Unless a method is devised for overcoming this malady, our race must deteriorate." Many persons use soda tablets to neutralize fermenting food; this only makes a chemical receptacle out of the stomach, and injures its sensitive structures. Others feed on pepsin, which is better, but not sufficient, for it digests only albuminous foods. The preparation best fitted to relieve and absolutely cure indigestion is **KODOL DYSPEPSIA CURE**. It contains every known digestant and digests every kind of food. Its use is a common sense method of treating all stomach troubles, and the results are always certain.

## SCHEMES TO AVOID GAME WARDENS

Deputy Peter Drefahl Returns Home from a Three Weeks' Stay in Northern Woods.

Deputy game warden Peter Drefahl of the town of Rock returned home this morning from a three weeks' stay in the north woods where he has been watching the deer hunters. Deputy Drefahl did not get out into the woods much but spent most of his time at Spooner and the neighboring stations looking after the illegal shipments of game. He is in company with a warden by the name of La Valle went into the woods one Sunday and brought back four deer, six dogs, ten rinks skins and about one hundred rat skins that had been taken illegally.

All sorts of schemes were tried by the hunters to sneak game out of the state and all kinds of packages were used to throw the wardens off the scent. Some people marked their boxes fish, others fruit and many of them packed their game in boxes with vegetables and in this way succeeded in getting their boxes by the wardens but the most of them were picked up and confiscated.

Some of the game wardens have dogs trained to smell out any package containing game. The warden would get into an express car with his dog, who would soon locate every package that contained game. Some shippers put split onions around the outside of the boxes and in this way threw the dogs off the scent. This was only one of the numerous ways used to throw the game wardens off.

## FEARS UNITED STATES.

Dr. Paache of Germany Warns Reichstag Against "American Peril."

Berlin, Dec. 5.—During the course of the tariff debate in the reichstag today Dr. Paache of Halle university sounded the strongest warning concerning the "American peril" which has yet been uttered. Dr. Paache visited the United States in 1899 to study the social and industrial conditions there. During his address the speaker laid before the house masses of figures which set forth the expansion of American manufactures and of American foreign commerce in recent years and the enormous accumulation of wealth in the United States. He accompanied his statistics by a philosophical analysis supporting the idea that Germany's most dangerous and most immediate trade enemy was the United States. Dr. Paache said: "Peculiarly grave dangers threaten us from America; against these we must put ourselves in a state of defense."

## Mother's Friend

Those who do know about it wonder how they ever got along without it. It has robbed childbirth of its terrors for many a young wife. It has preserved her girlish figure and saved her much suffering. It is an external liniment and carries with it therefore, absolutely no danger of upsetting the system as drugs taken internally are apt to do. It is to be rubbed into the abdomen to soften and strengthen the muscles which are to bear the strain. This means much less pain. It also prevents morning sickness and all of the other discomforts of pregnancy. A druggist of Macon, Ga., says: "I have sold a large quantity of Mother's Friend and have never known an instance where it has failed to produce the good results claimed for it."

A prominent lady of Lambert, Ark., writes: "With my first six children I was in labor from 24 to 30 hours. After using Mother's Friend, my seventh was born in 4 hours."

## STRICT LAWS ON ANARCHY URGED

Senator Hoar Proposes Death Penalty for Attack on Any Official.

M'COMAS HAS A PLAN TOO.

Lodge Wants Chinese Exclusion Act Extended and New Rules on Immigration—Proposed Cable to Hawaii—Measures in Upper House.

Washington, Dec. 5.—Senator Hoar introduced a bill for the protection of the president. It provides, "that any person who shall within the limits of the United States or any place subject to the jurisdiction thereof willfully kill or cause the death of the president of the United States, or any officer thereof, or who shall willfully kill or cause the death of the ruler or chief magistrate of any foreign country, shall be punished with death." An attempt to kill any of the officers named is also made punishable by death. Any person who shall advise the killing of the president of the United States or any of the other officers already named shall be punished by imprisonment not exceeding twenty years. Any person who shall willfully and knowingly aid in the escape from punishment of any person guilty of either of the acts mentioned shall be deemed an accomplice after the fact and punished as if a principal, although the other party or parties to said offense shall not be indicted or convicted.

To Punish Would-Be Assassins.

Senator McComas presented to the senate a resolution declaring that congress has power and should by law provide that a person who willfully kills or assaults with intent to kill the president or vice-president or both, or any officer upon whom the powers and duties of president may devolve, shall be punished with death, the federal courts to have jurisdiction of such offenses; also for the exclusion and deportation of alien anarchists.

Exclusion Law for Anarchists. Senator Burrows introduced a bill "to provide for the exclusion and deportation of alien anarchists."

Provides for Agents Abroad.

Provision is made for the appointment of twelve immigration agents at a salary of \$2,500 each to make investigations in foreign countries concerning intended immigrants. The bill provides that "the fact that an alien has declared his intention to become a citizen of the United States shall constitute no bar to proceedings against him under this act."

May Extend Chinese Act.

Senator Lodge introduced a bill providing for the removal of the ten years' limitation on the Chinese exclusion act, thus leaving the provisions of the Geary act in force.

Similar bills were presented by Senators Mitchell, Fairbanks, Stewart, Quay and Penrose. Senator Mitchell's bill also applies to the exclusion of Japanese and Filipinos and their descendants, as well as to the descendants of Chinese.

Senator Lodge also reintroduced his immigration bill providing for an educational test for the admission of immigrants. The writing test is removed, and the new bill requires only that the immigrant shall be required to be able to read.

Other Measures Before Senate.

Other bills were introduced by Senators as follows:

Nelson and McComas, each a bill for the establishment of a department of commerce.

Dolliver, to repeal the bankruptcy law.

Perkins, for the laying of a cable to Hawaii and the Philippines.

Burrows, providing for a constitutional amendment for election of United States senators by the people where state legislatures fail to elect; also a constitutional amendment changing the day for the inauguration of the president of the United States from March 4 to the last Thursday in April.

GAGE'S ANNUAL REPORT.

Currency Reform Is Recommended to the Attention of Congress.

Washington, Dec. 5.—Secretary Lyman J. Gage of the treasury department has submitted to congress his annual report.

The revenues of the government from all sources (by warrants) for the fiscal year ended June 30, 1901, were \$699,316,530.92.

The expenditures for the same period were \$621,538,516.54, showing a surplus of \$77,777,984.38.

Compared with 1900 the receipts increased \$29,721,099.74, and the expenditures but \$22,253,561.44.

The revenues for the current fiscal year are estimated as follows, on the basis of existing laws: Customs, \$250,000,000; internal revenue, \$282,000,000; miscellaneous sources, \$40,000,000; postal service, \$116,633,042; total estimated revenues, \$688,633,042.

The expenditures are estimated at \$588,633,042, which will leave an additional surplus of \$100,000,000. For 1903 the estimated receipts are \$712,020,000, and expenditures \$688,548,318.47, leaving a still further surplus of \$23,471,681.53.

The treasury is shown to have had an available cash balance of \$171,017,610.89 Nov. 15, 1901.

Relative to the circulation per capita the report says: "While the circulation

per capita was \$26.50 on July 1, 1900 and \$28.52 on Oct. 1, 1901, gold certificates more and more entered into the field of large denominations and were used almost exclusively in the payment of customs duties and in the settlements at the clearing house in New York. The United States notes are undergoing a change into the denomination of \$10 as larger ones are redeemed while the silver certificates are taking the place of \$1, \$2 and \$5 notes.

"Two features are marked in the currency—first, the growing use of gold and, second, the constant addition to the small denominations of paper. The gold, including certificates, in circulation, which was 33.5 per cent of the total circulation on July 1, 1900, was 39.5 per cent on July 1, 1901, 40.2 per cent on Oct. 1, 1901. The average denomination of notes and certificates issued by the treasury, which was \$6.34 in the fiscal year 1900, fell to \$4.46 in 1901."

Relative to the mint service the report says:

"The coinage of the mints during the fiscal year amounted to 176,999,132 pieces, of a value of \$136,340,781.58. Of this, \$99,065,713 was gold, \$24,298,850 was silver dollars, \$10,966,648.50 was subsidiary silver, and \$2,009,568.05 minor coin. There were also coined at the Philadelphia mint 225,000 gold pieces, of the value of \$349,014.42, for the government of Costa Rica."

"About five years ago I was troubled with catarrh of the lower bowel," says C. T. Chisholm, 484 Dearborn Ave., Chicago, and although I consulted several eminent physicians who prescribed for me, I found their remedies failed to in any way relieve me, and the trouble almost became chronic. After suffering several months, I one day concluded to try Chamberlain's Colic, Cholera and Diarrhoea Remedy and I beg to assure you that I was most agreeably surprised to find after taking two doses of the remedy that I was completely relieved of the disease that had cost me so much trouble and annoyance. I am thankful to say that I have not suffered from it since. For sale by Peoples' Drug Store and King's Pharmacy.

Admits He Robbed Bank.

New York, Dec. 5.—George Zollin-

hoffer, the Williamsburg Savings bank teller, withdrew his plea of not guilty and pleaded guilty to grand larceny in the second degree before Judge Aspinwall in Brooklyn. The indictment in this case charged him with stealing \$400. He was remanded for sentence.

The extreme penalty is five years' imprisonment. Zollinoffer has confessed that he and an employee of the bank, who died several months ago, robbed the institution of more than \$60,000.

Killed While Making Peace.

Omaha, Neb., Dec. 5.—It was developed at the coroner's investigation of the death of Najeeb Saddy during a riot in the Syrian colony Saturday, that Saddy was killed while acting the role of a peacemaker. He had been in this country but two weeks, and was trying to make peace between two factions who were fighting over who should have a certain young Syrian girl for a wife. Bardawel, whom several witnesses say did the stabbing, is still at large.

Bezzant's Knocks Out Sanchez.

Cincinnati, O., Dec. 5.—Engene Bezzant of Covington, Ky., knocked out Emil Sanchez of Buffalo in the seventh round before the Abbey Athletic club here.

Crown Prince to Visit America.

Berlin, Dec. 5.—Emperor William has decided to permit the Crown Prince to make a trip around the world. He will visit a number of American cities.

Supreme court decision will make it necessary to enact laws establishing a civil government in the Philippines and provide tariff laws for the colonies.
